

BILAL FAROOQ

Queens, NY | (332)-216-9890 | bilal.farooq0879@gmail.com | [Linkedin](#) | [Github](#)

EDUCATION

CUNY-Queens College, Flushing, NY

Bachelors of Science, Computer Science

Expected Graduation: **December 2026**

Relevant Coursework: Algorithmic Problem Solving (C++) | OOP in C++ | OOP in Java | Discrete Mathematics | Data Structures and Algorithms | Design and Analysis of Algorithms | Computer Architecture | Database Systems | Principles of Programming Languages | Calculus

SKILLS

Languages: C++ | Java | Python | HTML

Tools: VS Code, Dev C++, Eclipse, Jupyter Notebooks

PROJECTS

Pitch-Perfectly - AI powered Karaoke Scoring Platform

October 2025 – December 2025

Personal / Team Project | Tech Stack: React, Python, Torch-CREPE, Demucs v4

- Designed and developed an AI-powered real-time scoring system that analyzes vocal pitch and energy to provide objective performance feedback during karaoke sessions
- Built **data-driven scoring logic** combining pitch accuracy (30%) and energy matching (70%), producing a normalized performance grade (0–100)
- Implemented real-time pitch tracking and vocal separation using **Torch-CREPE** and **Demucs v4** to accurately isolate and analyze vocals
- Developed a leaderboard system to rank users and introduce competitive insights based on performance metrics

PROFESSIONAL EXPERIENCE

CUNY Tech Prep | New York, NY

Data Science Fellow

July 2025 – Present

- Built data science projects through a selective, year-long fellowship, applying industry best practices for exploratory data analysis (EDA), feature engineering, data collection and processing, statistical modeling, data visualization, machine learning techniques, and big data using Python 3, Jupyter Notebooks, Pandas, Numpy, Scikit-learn, and SQL.

Ubiq Insider Program

November 2024 – January 2025

Quality Assurance Tester

- Evaluated and conducted meticulous usability testing and functionality of a spatial media application pinpointing 10 bugs and issues
- Collaborated and conveyed bugs to leaders ensuring troubleshooting and upkeep of the application allowing to secure more seamless utilization
- Supplied feedback on UI/UX and app bugs, contributing to improved usability and design enhancements
- Collaborated with peers and held discussions on the potential solutions and ensure the functionality and reliability of crucial application aspects

Mentor Me Collective x Grow with Google

August 2024 – November 2024

Scholar, **Google Certificate**

- Met weekly with 10+ cohort members to deepen understanding of Completed Google's IT Support Certificate covering fundamentals, networking, system administration and IT security fundamentals.
- Gained experience with using tools like Linux Command Line, Windows Powershell and overall troubleshooting techniques

EXPERIENCE

The Home Depot

May 2022 – Present

Sales Associate

- Provided customers with in- depth product expertise and lumber cutting services assistance and selection to customers for specific to support home improvement projects
- Organized and maintained inventory to ensure bays were stocked and products were readily available to increase foot traffic
- Monitored and trained 8 new employees on customer service techniques, product knowledge, store procedures, and safety precautions
- Operate sit-down and stand-up forklifts
